TECHNICAL SKILL

- Programming Languages: Python, Django, HTML5, CSS3, JavaScript.
- Database: PostgreSQL.

➤ **PVP College Job portal:-**

- **Description:-**
- The job portal project is an online platform connecting job seekers and companies. It features modules for Candidates, Companies, and Admin, each with specific functions. Sometimes, students at PVP College don't know when companies come to visit. So, the college job portal helps with this. It's like a main place where companies can sign up and post job openings. Then, these job postings automatically show up on every student's dashboard, and they also get emails about them. This way, students always know about job opportunities from visiting companies, making it easier for them to find a job they like.
- **Technology Used for Project:** Python, Django, Bootstrap5 Template, HTML5, CSS3, JavaScript.

➤ **Department Management System :-**

- **Description:**
Department Management System(DMS).
This is my final year project designed according to our department's need. This project has been developed by our team of 3 people. A Department Management System (DMS) is a role based web application designed for managing academic records and generating reports in different formats like pdf, doc, excel. The DMS typically includes features such as annual report, customized report generation
- **Technology Used for Project:** HTML5, CSS3, Bootstrap 5 Template, Python, PostgreSQL.

➤ **Portfolio: -**

- **Description:**
My portfolio website, Digital Portfolio is a showcase of my professional journey, highlighting my work, skills, education, and achievements. this project demonstrating my commitment to excellence and continuous learning.
