PROJECTS

HOSTEL MANAGEMENT SYSTEM
Spearheaded the development of a cutting-edge Hostel Management System for our college hostel, aimed at digitizing and automating administrative tasks to enhance operational efficiency. The system provides a comprehensive digital solution for managing various hostel functions, including attendance, mess management, leave applications, and paperwork.
Technology : PHP , HTML , CSS , BOOTSTRAP , PGSQL .

SKETCHMART:
Developed SketchMart, an innovative platform designed to bridge the gap between artistic talent and commercial needs. This project facilitates a seamless connection between clients seeking custom sketches and artist managing their sketches. The platform empowers clients to place personalized sketch orders, specify quantities, and provide detailed preferences, while offering artists comprehensive tools to manage their orders and inventory.
Technology : JAVA , HTML , CSS , MYSQL .

ONLINE RECRUITMENT PORTAL
Designed and developed an Online Recruitment Portal to streamline the job application process for students and enhance recruitment efficiency for companies. This dynamic platform allows students to create profiles, upload resumes, search and apply for job postings, while providing companies with tools to post job offers and define application criteria. An administrative interface manages and oversees user activities to ensure smooth operations.
Technology : PYTHON , HTML , CSS , PGSQL .

TOOLS AND SOFTWARE KNOWN

Visual Studio Code , Eclipse IDE , IntelliJ , GitHub , WordPress , Microsoft Excel , Word , PowerPoint

Database : MYSQL , MONGODB , PHPMYADMIN

RELEVANT COURSE WORK

Data Structure And Algorithm , Object Oriented Programming .

DECLARATION

I here by declare that all the information given above is true and best of my knowledge.
